

REMARKS

The Examiner has made a requirement for restriction, identifying three groups of claims which the Examiner states are distinct from one another. Applicant hereby elects Group III which included claims 7 and 8 as identified by the Examiner. This election is made with traverse.

Applicant has cancelled claims 1-4, 6 and 8. Applicant has amended claim 7 to include the first and second handles being pivotal about first and second axes respectively in addition to the horizontal axis also recited in claim 7. Furthermore, Applicant has made an amendment to the "attachment" and to the "connecting" member for antecedent purposes.

Claim 13 has been amended to include limitations directed toward the laser beam, the laser beam detector, and the first and second pivotal axes of the handles which are perpendicular to the horizontal axis of the pivot member. It is believed that claims 7 and 13 are now claiming the same invention and therefore the claims are now in allowable form. Claim 7 has been allowed, and claim 13 was indicated by the Examiner in the Office Action dated November 30, 2004 to be allowable. Accordingly, it is believed that these claims are now in proper form for allowance.

Accordingly Applicant respectfully requests that a Notice of Allowance be issued. If prosecution of this application can be facilitated by further consultation with Applicant's attorney, Applicant invites the Examiner to telephone Applicant's attorney at the below identified telephone number.

No fees or extensions of time are believed to be due in connection with this amendment; however, consider this a request for any extension inadvertently omitted, and charge any additional fees to Deposit Account No. 26-0084.

Respectfully submitted,

Michael G. Voorhees
